University of Denver

Summary

New Faculty Teaching Development Initiative

A

## Teaching Excellence Initiative (TEI) Introduction

*We are committed to excellent teaching and excellent scholarship, and at DU we recognize that excellent teaching is informed by excellent scholarship. We understand that professors, from year to year and over the course of their careers, will balance their commitments to, and time investments in, these equally important enterprises in different ways.*

*Self reflection about teaching, coupled with professional development opportunities and institutional supports, improves teaching. This can be documented and evaluated.*
