Next, Select a Document : choose Section A – Main IACUC Protocol Template from the drop-down options to begin building your package.

Open or save 'Section A – Main IACUC Protocol Template' to your computer hard drive.

Step 5: ATTACH FORMS

Complete the form and save it in a folder to store all research documents related to this protocol.

Go into IRBNet and click on 'Attach New Document' on the DESIGNER page, select the correct document form from your hard drive and IRBNet will automatically post the document under Step 2: Documents in this Package .

As an optional feature - click on the yellow icon   to add a package description or notes (i.e. New Application - Triennial)

.
