

How to Create New Project in IIRNet

The screenshot displays the IIRNet web application interface. At the top, there are navigation tabs for 'USER PAGE' and 'USER PROFILE'. Below these, a 'Welcome to IIRNet' message is visible, identifying the user as 'Ashleigh Ruehdanz'. The main content area is titled 'Submission Manager' and contains a table of project submissions. The table has columns for 'Project Name', 'Status', and 'Action'. One project is listed with the name 'Project A' and a status of 'Not submitted'. Below the table, there are several buttons and links, including 'Add New Project', 'View Project', and 'Edit Project'. The interface is cluttered with various UI elements, including search bars and filters.

This screenshot shows a similar view of the IIRNet interface, but with a different set of data in the 'Submission Manager' table. The table now lists two projects: 'Project B' with a status of 'Submitted' and 'Project C' with a status of 'Not submitted'. The 'Action' column for 'Project B' includes a 'View' link, while 'Project C' has 'View' and 'Edit' links. The overall layout and navigation elements remain consistent with the previous screenshot.
